Dear Abdul Moiz,

Thank you for your application to study at The University of Manchester. I am delighted to make you a conditional offer of a place on the above course. You can check the details of your offer, including the conditions which apply to it, by accessing your application on the UCAS Hub.

Once you have received decisions from all your choices, UCAS will contact you with official confirmation and information about what you should do next.

If you are instructed to upload evidence as part of your offer, you will first need to activate your University of Manchester IT account. You can create an account by going to <https://iam.manchester.ac.uk/> and following the instructions. Documents that have been requested can then be uploaded via [Self Service](#).

The University charges different tuition fees depending on whether a student is classified as Home or International, using criteria outlined in the Education (Fees and Awards) (England) Regulations (2007), the Higher Education (Fee Limit Condition) (England) Regulations 2017 and any other relevant regulations. From the information you have provided to us and based on the regulations currently available to us, you have been classified as a Overseas student for tuition fee purposes. Please note that your fee status can be subject to review if other information becomes available and that in exceptional cases your fee status may change.

2023/24 Academic Year: The tuition fee for this course will be GBP 32500.00.

The tuition fee stated is only valid for the year of entry stated.

Most international students studying for more than six months will need to obtain a visa via the Student Route to study in the UK. For attendance of less than six months duration, for example a single semester, students will be able to apply for a Standard Visitor Visa. This offer is not a confirmation of your eligibility for a visa. Further information in relation to visas for international students is available at: [International Students](#).

In the event that you accept and satisfy any conditions set out in this offer you will be invited to complete a Right to Study check. This will determine if a visa is required. Following completion of this check, a confirmation of acceptance for studies (CAS) or a letter to

support your Standard Visitor Visa application will be sent to you if required. The University reserves the right to refuse admission should you arrive after the latest date for acceptance onto the course specified in your CAS.

To study on this programme in the UK you need an Academic Technology Approval Scheme (ATAS) certificate. Immigration rules state that you must have an ATAS certificate for this programme before you start your course. If you need to apply for a student visa or extension stay, you will also need your ATAS certificate for your visa application. You can apply for an ATAS certificate up to 6 months in advance of the beginning of your course and there is no payment required. We advise that you begin the application process as soon as possible (but no earlier than 6 months before your start date). See [ATAS](#) for further information. You will not be permitted to start your programme without a valid ATAS certificate.

Applicants who accept their offer will be asked to declare any relevant, unspent convictions. We will contact you separately to request this information. Details of this procedure can be found in our Information and Guidance for Applicants with a Criminal Conviction document which can be found at: <http://documents.manchester.ac.uk/display.aspx?DocID=17995>. This does not apply to applicants for programmes where an Enhanced Disclosure and Barring Service (DBS) check is required.

BOOKS, PERSONAL EXPENSES, TRAVEL, AND OTHER EXPENSES

You should anticipate additional costs beyond the tuition, fees, room, and board charged by the College. For example, you will need money for books and supplies. Students typically spend \$300 to \$400 each term on books and supplies. You will also have personal expenses for items such as laundry, snacks, personal supplies, and other items. Students generally spend a minimum of \$20 per week for these items.

You will also incur expenses during your breaks. Students that stay on-campus during winter and spring breaks will not be charged for housing but will be responsible for their meals. In 2023–2024, winter break is from November 21, 2023, to January 2, 2024. Spring break is from March 14 to March 24, 2024. Summer break is from June through early September. If you stay at Knox through the summer, housing can be arranged at a modest charge. Some students are able to find campus employment to help cover expenses for housing and meals during these times. All travel costs are the responsibility of the student.

COST OF ATTENDANCE IN FUTURE YEARS

You should anticipate annual fee increases of 4–6%. Recipients of need-based grants can expect only minimal increases to awards each year to help cover a portion of the annual increases in costs. It is important to remember that you and your parents or sponsors are responsible for the remainder of these increases.

FINANCIAL AID AWARDS

If you are the recipient of Knox grant or scholarship awards, one-third of your award will be applied to your bill each term. For example, if you received \$15,000 in grant and scholarship awards, you would subtract \$5,000 from the charges to determine the payment you will owe the College. To illustrate:

Fall Term	Winter Term	Spring Term
\$22,064 Charges*	\$21,965 Charges	\$21,965 Charges
– 5,000 Grant/Scholarship	– 5,000 Grant/Scholarship	– 5,000 Grant/Scholarship
\$17,064 Amount Due	\$16,965 Amount Due	\$16,965 Amount Due

*Fall Term charges also include \$200 (estimated) for international orientation.

If you have been offered a campus employment award, you will have the opportunity to find a job at the beginning of the academic year. The maximum campus employment award is \$3,500, and students are paid at the rate of \$13 per hour (\$14 per hour beginning January 1, 2024). Earnings are dependent on the number of hours worked. Students are paid every two weeks by direct deposit to a U.S. bank account. Most students use their campus employment earnings to cover books and personal expenses.

ANTICIPATING THE COST OF ATTENDANCE

A college education is expensive, so we encourage students to establish a realistic, verified plan for how they will finance their studies. Students and their parents should evaluate their resources and make arrangements to meet college costs for their entire time at Knox, which is typically four years. You and your parents or sponsors should also plan for rising educational costs, possible devaluation of home currency, and foreign exchange limitations.

Your Campus Employment award is not included in the financial aid above. Earnings from campus employment can be applied to your bill or used for personal expenses. Your award of \$4,000 allows you to work on campus during academic terms.

You should also plan for indirect costs of attending college. These are estimated to be about \$2,500 during an academic year, including \$900 for books (\$300 each term), \$600 in personal expenses (\$200 each term), and \$1,000 for health insurance. These costs are not billed by the college but will be included on the form I-20, bringing the cost of attendance listed on the Form I-20 to \$68,494.
